

# HOT TREATMENT

## Waited on hand and foot

THE evolution of the spa continues. The latest edition is the new Mink hand and foot spa in Donnybrook. When proprietors Jim and Orla Verling visited New York, they were impressed with the extent and quality of the hand and foot treatments available there and thought that a similar concept would work very well in Dublin. There are four manicures and five pedicures to choose from, including the Deluxe Solar Manicure (warm shea butter and a hand to elbow massage) and the white chocolate and cranberry pedicure, where chocolate dipped strawberries are served on the side.

All manicures include a neck and shoulder massage while the polish is drying and little touches like valet parking service mean that you don't get stressed prior to your soothing experience. Check out [www.mink.ie](http://www.mink.ie); tel 01 260 3076.
